

**EMPLOYEE NOTICE
JOB POSTING & JOB DESCRIPTION**

UNION Position:

| | |
|--------------------|---|
| JOB TITLE: | Public Safety Telecommunicator (FT Position) |
| SALARY: | \$48,922 - \$84,917 Sr. \$88,738 |
| DEPARTMENT: | Police |

DEFINITION: Under direction, receives and responds to telephone or other electronic requests for emergency assistance, including law enforcement, fire, medical, or other emergency services and/or dispatches appropriate units to response sites; does related work as required.

EXAMPLES OF WORK:

- Receives telephone or other electronic requests for emergency assistance.
- Determines the nature of the call and may transfer caller to appropriate PSDP (Public Safety Dispatching Point) upon determining the nature of the call.
- Obtains, verifies, and records the location of the emergency, the name of the caller, the nature, severity, and current status of the emergency, and obtains any other appropriate information needed to secure a full assessment of the circumstances.
- Operates automatic number identification (ANI), automatic location information (ALI), telecommunications devices for the deaf (TTY/TDD) or other electronic devices to obtain and verify required data; may be required to access foreign language interpreter service for non-English speaking callers.
- Maintains a reassuring and calming manner with callers in order to obtain required information; persuades emergency callers to stay on the line.
- In response to medical emergencies, provides first aid or CPR instructions to stabilize the medical condition of persons until the arrival of professional medical assistance.
- In non-medical emergencies, provides precautionary instructions and advice to help assure the personal safety of persons and/or to minimize the loss of property, pending the arrival of fire, police, or other assistance.
- Refers non-emergency situations to other appropriate public or private agencies, and may dispatch non-emergency personnel or equipment.
- Relays information or instructions to field units via radio or mobile data terminal.
- Utilizes 800 MHz radio equipment to receive, monitor, record, summarize, and/or transmit data relating to the emergency.
- Determines the appropriate type of agency(ies) to respond to the specific emergency or call for assistance.
- Utilizes radio, telephone, computerized, or other electronic equipment to dispatch specific law enforcement, fire, or medical assistance units to the scene of an emergency based on pre-established response plans, and seeks guidance from supervisory personnel when circumstances warrant significant deviation from pre-established response plans.
- May assist in locating or contacting individuals needed to staff the response.
- As instructed, coordinates the dispatching of units involving two or more government jurisdictions.
- Maintains and facilitates communication with responding units by receiving and relaying information, including confidential information, to authorized personnel.
- Detects and takes alternative/corrective action when communication system or program errors occur and reports malfunctions in accord with established procedures.
- Maintains a constant update on the status of emergency units in the field and of on-call personnel.
- May make entries, inquiries, cancellations, and modifications of records in various systems and databases such as the National Crime Information Center (NCIC) and State Crime Information Center (SCIC), Stolen Vehicle File, Stolen License Plate File, Stolen-Missing Gun File, Stolen Article File, Wanted Person File, Stolen or embezzled or Counterfeited or Missing Securities

- File, Stolen Boat File, Hazardous material databases, and hospital status files.
- Answers questions about application of regulations or policies.
- Receives and answers telephone, radio, and video display inquiries of the NCIC and the SCIC for law enforcement agencies of the state.
- Maintains and updates NCIC, SCIC, and other records and files.
- Maintains the official station record and/or maintains a daily log of all incoming and outgoing communications.
- Activates emergency alert systems, such as bells, sirens, beepers, and tone-activated devices.
- May inspect fire alarm and circuit indicator panels to ascertain whether they are functioning properly.
- Assists in the training of trainees (FTT Program).
- Prepares reports and statistical data.
- Inspects and makes minor adjustments or very minor repairs to communications and related equipment.
- Will be required to learn to utilize various types of electronic and/or manual recording and computerized information systems used by the South Brunswick Police Department.
